5. Mumbai's informal settlements struggle to power their homes [NONE RISK]

District: Erode & Sathyamangalam | **Category:** General Wildlife | **Source:** Mongabay India | **Species:** Wildlife

- “We pay ₹600 every month whether we get electricity or not.
- We used to pay more but there are now two electricity mafias competing in this area,” says Ajuma Sheikh, a 63-year-old social worker who stays in Patra chawl in Mumbai's Mankhurd suburb.
- For the past 25 years, she has been caught between the powerful [...]

6. Sloth bears are unlikely seed dispersers shaping forests [NONE RISK]

District: Tamil Nadu | **Category:** General Wildlife | **Source:** Mongabay India | **Species:** Sloth Bear

- Sloth bears may be doing much more than foraging across Rajasthan's semi-arid deciduous forests.
- A new study from the Aravalli hills suggests they may also help shape the forests by dispersing viable seeds.
- “A relatively small number of careful studies have been conducted on sloth bear diet ecology, and an even smaller number on their [...]

7. After decades of drought-proofing, farms still depend on rain [NONE RISK]

District: Erode & Sathyamangalam | **Category:** General Wildlife | **Source:** Mongabay India | **Species:** Wildlife

- “This is all barren land now, but here we used to farm,” says Koushal Kishore Vishvakarma, a resident of Darudih village in Palamu district, Jharkhand, pointing to a long stretch of dry land spreading across the region.
- “It's covered in grass because of the fresh monsoon rain, but it's nothing more than grazing land now,” [...]
- Local residents urged to follow forest advisory safety guidelines.

8. Assam activist's detention draws widespread condemnation [NONE RISK]

District: Tamil Nadu | **Category:** General Wildlife | **Source:** Mongabay India | **Species:** Wildlife

- Over 60 civil rights groups have condemned the detention of Assam-based environmental and Indigenous rights activist Pranab Doley under the National Security Act, calling it a clear “attempt to punish and vilify activists for exercising their constitutional right to protest.” Doley led protests against a five-star luxury resort proposed to be built within the Kaziranga [...]
- Forest Department and local authorities dispatched teams for ground surveillance.
- Local residents urged to follow forest advisory safety guidelines.

9. New clues into how animals evolved an internal compass to navigate Earth [NONE RISK]

District: Tamil Nadu | **Category:** General Wildlife | **Source:** Mongabay India | **Species:** Sea Turtle

- Magnetoreception is like an internal compass that animals use in their journeys, using the Earth's magnetic field.
- It helps migratory birds navigate across the central Asian flyway, for example, or turtles, fish and other animals travel across vast distances.
- Recent research raises new questions about the evolutionary origins of magnetoreception and suggests that it may [...]
